## October 20, 2014 // 2015 Membership Rate Proposal

Early in September, an email was forwarded to membership regarding a change in membership rate structure. In this email, it was reported that while our total association membership numbers increased by 18 in 2014, our membership revenue decreased by about \$1600 (updated figure as of 10/20/14).

While exploring the reasons for this discrepancy, it became clear that there was a subtle change in the distribution of large agency members vs. small agency and individual members. We have concluded that much of the shortfall appears to be the result of large agencies becoming larger and smaller agencies either becoming smaller, or instead, sometimes becoming a group of individual consultants.

Given this, we have proposed a modification to our annual membership rates by creating a structure that will, in effect, result in no change whatsoever for independent consultants and very small agencies, and result in only a modest rate increase, of \$100, for agencies of 15 or less.

Large agencies, defined as over 16 member consultants, will feel the greatest effect, of \$600. However, it is also important to note that the membership fees per consultant will always be equal to, or oftentimes less than, the membership rate paid by each independent member.

It remains our commitment to maintain a \$100 per consultant membership rate baseline.

As proposed for 2015, INABC rates will be:

- \* 100\$ per consultant - for individuals, or small agencies of 5 or less
- \* 600\$ per agency - for agencies with 6 to 10 consultant members
- \* 1100\$ per agency - for agencies with 11 to 15 consultant members
- \* 1600\$ per agency - for agencies with 16 or more consultant members
- \*\* there will be no change in rates for students (\$50) and retirees (\$250 lifetime)
